

UPDATE V2.5

“PHP Social Microblogging”

By Miguel Vasquez

- Fixed bug in relative path images
- Added "Autosize" Admin Panel and Posts
- Redesigned Admin Panel based on **Bootstrap 3**
- Added option Add users admin (Only the Administrator)
- Added function add and delete pages in Admin Panel
- Aggregate Statistics **Google Charts**
- Added function enabled user account from the Admin Panel
- Fixed bug with characters allowed in the password admin panel

Files Affected

- / **application** / Request.php
- / **application** / Bootstrap.php
- / **controllers** / All files
- / **models** / AdminModel.php
- / **models** / UserModel.php
- / **class_ajax_request** / classAjaxAdmin
- / **public** / **js** / functions.js
- / **public** / **ajax** / getData.php
- / **public** / **ajax** / get_all_post.php
- / **public** / **ajax** / get_post.php
- / **public** / **ajax** / ajax.discover.php
- / **public** / **ajax** / searchAjax.php
- / **public** / **ajax** / post_details.php
- / **public** / **ajaxAdmin** / All files
- / **public** / **admin** / All files
- / **views** / **admin** / All files
- / **views** / **index** / index_session_null.phtml
- / **views** / **index** / index_session.phtml
- / **views** / **inc** / footer_session.php
- / **views** / **user** / profile.phtml
- / **views** / **pages** / static.phtml

IMPORTANT: If you are using the "no-captcha-no-user-verify" or "no-captcha" just have to replace the file "**index_session_null.phtml**"
