

UPDATE V2.7

“PHP Social Microblogging”

By Miguel Vasquez

- Fixed bug in section **followers**
- Fixed error with number of post in **Repost**
- Added country of user in profile
- Added **50** countries
- Added **PDF** file “**How add new country**”

Files Affected

- / **models** / UserModel.php
- / **controllers** / userController.php
- / **public** / **js** / functions.js
- / **public** / **ajax** / get_followers.php
- / **public** / **ajax** / post_details.php
- / **views** / **user** / profile.phtml

Add news countries

Delete the table in your database “**countries**” and import the table “**countries.sql**”

Thanks!
